### J. S. McCULLOUGH RETURNING FROM OVERSEAS THIS WEEK

It is understood that Pte. J. S. McCullough, of East Coleman, is scheduled to arrive home this week. His sister is in Calgary to meet him.

## Pass Butchers On Strike---Miners Lay-Off Work

### Coleman To Launch Drive In Aid Of Clothes Collection Campaign; Town Zoned To Facilitate Collections

Sub-Depots Set Up in All Zones; Main Depot Established on Main Street Next to Abousafy Store.

Coleman is prepared to launch its drive to aid the National Clothing Collection on Monday, Oct. 1. The town has been divided into the following zones to facilitate collections:

Zone 1: Graftontown and Blairmore Road.

Zone 2: All of East Coleman across the CPR track.

Zone 3: CPR depot, main street and Second street.

Zone 4: Third to Seventh streets and the Flats.

Zone 5: West Coleman.

Zone 6: Willow Drive, Carbon-dale, Sentinel and Lime Kill.

Due to the fact that national headquarters issued its publicity at the very last minute it was found impossible to prepare suitable advertising for the first week of the drive. As a result subdepots have been set up in the various zones and citizens who do not wish to wait on trucks making a house-to-house canvass in the second week have the privilege of taking their clothes parcels to any of the following depots, where they will be accepted: The Catholic hall on any day except Sunday, the United

church club room, East Coleman Grocery, Toppans's Store, Bobbitt's Store, Cameron school, Coleman high school, or McGillivray office.

The main depot will also be open if persons wish to contact Mr. Abousafy, who has charge of the key.

Next week it is hoped to have advertising giving particulars on the house-to-house canvass. Hand bills will be distributed telling the date and time when a particular zone will be canvassed by truck.

Citizens desiring to aid in the drive are asked to particularly note the following:

1. Articles required are blankets, coats, suits, socks, scarves, sweaters, caps, mitts, boots, shoes, rubbers, shirts, underclothing and babies' clothes.

2. Each pair of shoes should be securely tied together.

3. When donating a suit make sure that the various garments are tied together, or better still, wrapped by themselves.

On Oct. 5, Friday, the National Film Board is bringing to Coleman a film explaining the need for clothing for Europe. It will be shown in the Community hall and all citizens interested are invited to attend. Posters will be displayed on main street giving the time of showing.

### BELLEVUE SOLDIER PRESENTED TO KING

Last Friday Sergeant Tommy Price, of Bellevue, arrived home after several years overseas. He is the brother of Mrs. Joe Kostelnik.

Tommy is the first Pass soldier to be presented to His Majesty, King George, to receive the Military Medal at Buckingham Palace.

### Sgt. Jim Kroesing Awarded The Military Medal

Sgt. James Ernest Kroesing

Sergeant James Ernest Kroesing, son of Mr. and Mrs. Ernest Kroesing, has been awarded the Military Medal, according to a list of awards issued at Ottawa last week.

This is the second Coleman soldier to win this award, George Derbyshire, who now has his release from the army, having won the award for outstanding gallantry while in action in Italy.

Sgt. Kroesing's citation reads: "Sergeant Kroesing has been a crew commander in every operation in which 29 Canadian Armoured Reconnaissance Regiment has participated since August, 1944. At all times he has displayed courage and initiative of the highest order. During the operation to seize the Hochwald Gap on February 27, 1945, Sergeant Kroesing was in the troop moving with the leading elements of the Alouquin Regiment. When his troop leader's tank was put out of action this non-commissioned officer assumed command of the troop and continued the advance despite heavy fire from enemy anti-tank guns. During this operation he directed the fire of his own tank so effectively that he succeeded in knocking out one self-propelled gun and at least two other vehicles. Despite the fatigue of his men he maintained his tanks in action for over forty-eight hours before relief was possible. Early in March during the advance towards Veen the squadron was held up by mines and craters. Without hesitation this non-commissioned officer got out of his tank and reconnoitered a route to by-pass these obstacles. He then led his tank forward to a position from which he could engage a concentration of enemy mortars which had been harassing the infantry, thus enabling his own troops to advance further into the town. In these, and every other operation, Sergeant Kroesing has been a splendid example for all ranks in his squadron. His leadership and devotion to duty have been an inspiration to his regiment and to the infantry he has supported."

### ROY GARRETT MENTIONED IN DISPATCHES

Roy Garrett, son of Mr. and Mrs. Bert Garrett, of East Coleman, has been mentioned in dispatches for gallantry, according to an Ottawa release last week.

Roy has seen action in both the Italian and Western fronts.

### Sgt. Charles Maurer Released From Japanese Prison

Captured in Philippines in 1942. Had been a Prisoner in Japan For Past Three Years.

The worry and uncertainty of her son's welfare is now past for Mrs. Frances Maurer. On Wednesday she received a wire from Washington, DC, with the following information:

"Pleased to inform you of the liberation from Japanese custody of you son Sergeant Charles Eugene Maurer, US Marine Corps. He arrived at Guam Island on 23rd September, 1945. He sends the following message: 'Feeling fine, receiving excellent care, will be home soon, then to Chicago shortly afterwards. Best regards to all.' Further details will be furnished when received."

A. A. Vandegnil, General US MC Commander of Marine Corps."

### Salvation Army Drive Shows \$426 Collected To-Date

Local Collections Are Still Incomplete; Coleman's Quota Was Five Hundred Dollars.

Given a \$500 quota in the Salvation Army's Home Front Appeal Coleman has subscribed to date the sum of \$426.10. However, it is expected that the \$74 balance will be subscribed as there is still a few contacts to be made.

The subscriptions at the mine-heads received on the opening day of the drive exceeded that of last year.

It is not known what progress the drive is making in other Pass towns, the entire Pass having been given a quota of \$1,000.

Those who have not yet been solicited and who wish to subscribe are asked to send their subscriptions to the Salvation Army headquarters, Coleman.

Mr. John Salvador, of Creston, was a business visitor here at the week end.

### Pass Butchers Downed Tools Tuesday Morning; Miners Demand Double Ration Fresh Meat

No Sign of Butchers' Strike Ending; Donald Gordon States Meat Rationing to Stay.

Last Sunday afternoon Pass butchers met in Blairmore to further discuss the proposed butchers' strike in protest against present meat rationing regulations.

Some butchers had a fair quantity of meat left over from Saturday's sales and it was agreed that all butcher shops remain open on Monday in order to clean out the coolers. It was further agreed that providing no radical change was forthcoming in the meat situation from Ottawa that all butcher shops be closed until Ottawa saw fit to change the system. As a result all butchers' stores have been closed since Tuesday morning and there is no sign when they will reopen.

Today the local miners' union executive called a mass meeting to discuss the meat rationing system and the proposal to lay off work until such time as the Federal government acceded to the demands of the coal miners.

These demands were drafted at a mass meeting of all Pass miners held at Blairmore on Sunday last. They are:

"A meeting of mineworkers held in Blairmore on Sunday, Sept. 23, discussed the question of meat rationing as proposed by the War-time Prices and Trade Board at Ottawa, and arrived at the following conclusions:

"(a) That the people of the war

ravaged sections of Europe and Great Britain are in great need of meat and other food commodities, and that our nation is the logical source of same.

"(b) That in order to supply these commodities we must reconcile ourselves to rationing.

"(c) That the government policy towards the farmer is not consistent with the shortage of agricultural products in so far that present prices for cattle, etc., are not sufficient to encourage the farmer to produce to capacity.

"(d) That the present rationing system of equal weekly rations to all sections of Canadian life is not only unrealistic, but stupid in that it draws no comparison between the bodily requirements of the workers in offices and those involved in heavy industries, such as mines, smelters, etc.

"Having arrived at these conclusions, we have decided to petition your office, asking consideration for the following: That meat rationing to mine workers be increased to double ration of fresh meat and the lifting of the ration of such lunch meats as bologna, ham, etc.

"Unless consideration is given to the above request, forty-two hundred coal miners at least will cease all coal production Thursday morning, September 27."

The mines down the Pass have been idle since Wednesday afternoon. Coleman mines worked till midnight last night.

### Mrs. A. F. Short To Reside At Calgary

First Came to Coleman as a Young Girl; Honored By Her Many Friends.

Mrs. A. F. Short and daughter Frances have left Coleman to reside at Calgary.

Mrs. Short, daughter of the late Mr. and Mrs. Harry Gate, first came to Coleman when a young

girl. She received her education in the local schools. In June, 1916, she married the late Albert F. Short and continued to reside in Coleman till last week. A son, Alan, and his wife and baby have resided in Calgary for the past few years.

Before departing for the city Mrs. Short and Frances were the honored guests at a number of teas and were the recipients of many farewell gifts from their many friends who wish them health and happiness in their new home at 319 - 18th Ave. West, Calgary.

### THANK YOU!

Thanks is extended to the Overseas Welfare Fund for the monthly gift of cigarettes received by me while overseas, the Ladies Auxiliary, B.E.S.L., for their handsome Christmas parcels, to the Ukrainian Society, Coleman Branch, and Miss Yuill and her Cameron school students, for comforts received and which were greatly appreciated.

STEVE MYSSYNIUK.

### NOTICE TO PARENTS

September 30th, 1945, is the dead-line set for children about to start school.

Any child reaching the age of six years on or before September 30th is eligible to enter the Coleman schools. Children reaching the age of six years after that date will be unable to be accommodated this term.

SCHOOL BOARD.

### Harry Chikindo Died Tuesday Evening

Came to Coleman About Twenty Years Ago; Funeral Arrangements Await Arrival of Two Brothers.

Harry Chikindo, aged 62, died in the local hospital at 11:15 Tuesday evening after having been admitted a few hours earlier.

He was a Ukrainian by birth and came to Coleman about twenty years ago. He had been an employee of International Co., having been employed on the boilers. About six years ago he was forced into retirement with poor eyesight and on occasions has had to undergo operations on his eyes. He resided alone in a small shack at the

### IMPORTANT NOTICE

Relatives or others having information as to returning members of the Armed Forces are requested to communicate with R. Steurbaut, chairman of the Reception committee, M. W. Cooke or G. Jenkins, as the committee is anxious that all shall be welcomed on arrival.

Service personnel already returned are asked to register at the Canadian Legion in order that lists and particulars of service may be completed.

rear of the Community hall.

It is said that he has a wife in the Ukraine, but has failed to hear from her since the outbreak of the European war. Two brothers reside at Calgary and their arrival was awaited here to determine funeral arrangements.

### THANK YOU!

I wish to express my grateful thanks to the Overseas Welfare Fund, for the monthly gift of cigarettes, to the Ladies Auxiliary, B.E.S.L., for their much appreciated Christmas parcels, and to the citizens of Coleman who contributed so generously to the funds of these two organizations and so made the gifts possible.

ELLIS DERBYSHIRE.

### THANK YOU!

I wish to extend my most grateful thanks to the Overseas Welfare Fund and the Ladies Auxiliary, B.E.S.L., for their very much appreciated gifts of cigarettes, tobacco and other comforts. I also wish to extend my thanks to all who sent gifts while I was overseas.

J. P. MCINTYRE.

## WORLD HAPPENINGS BRIEFLY TOLD

American military government forces in Japan will keep the Japanese agency Domei operating for their own use.

The port of Gent (Ghent), which handled more than 1,000,000 tons of Allied supplies since Jan. 23, has been returned to Belgium, it was announced.

Congress at Washington voted to conduct its own investigation of the Pearl Harbor disaster, the third inquiry since the Japanese struck Dec. 7, 1941.

Norway is to receive Canadian goods to the value of \$13,000,000 under a credit agreement concluded between the two countries, the Norwegian Telegraph Agency says.

Three British officer prisoners-of-war who studied under the auspices of the Red Cross and St. John War organization have been awarded the national diploma in poultry husbandry.

Agriculture Minister D. I. Campbell of Manitoba told a special session of the Manitoba Legislature that the government hopes to have electricity within reach of every farm in the province within seven years.

Wing Cmdr. Kenneth Cecil MacLure of Westmount, Que., chief research officer on last May's Polar research flight by the R.A.F. bomber "Aries", received the Air Force Cross when members of the crew were decorated for the exploit.

The 25-year-old British destroyer Thracian lost to the Japanese in Hong Kong in December, 1941, was recommissioned by the Royal Navy after she was found among surrendered ships in Yokosuka naval base when the Allies landed there.

## Proud Italian Father

Received From King George The Victoria Cross For His Son

Sixty-five-year-old Alfredo Donini, holder of Aliens' Identity Card No. 60058, was stopped at the gates to Buckingham Palace when he tried to enter there one morning, but the big guard didn't have worried. This little man in striped trousers and black coat, although still technically an enemy, had a legitimate errand.

He was on his way to receive from the hands of the King the Victoria Cross his son was fighting on the Western Front last January. The youngest V.C. of this war, 19-year-old Fusilier Dennis Donini was killed in action only seven months after joining the army.

With Donini was his daughter Silvia of the A.T.S., and after the guard had scanned their credentials the two of them walked past the huge yard, the first time an enemy ally has entered those grounds since the palace was built in 1703.

Donini seemed a bit overbearing by the majesty of it all, and Silvia slipped her hand into his as they walked up the steps and through the palace door. Then the King appeared on the dias and an official called: "Mr. Alfredo Donini."

The ice-cream vendor who came to Britain when 17 to make ice cream for \$15.00 a week and his keep—and who always forgot to get his naturalization papers—approached His Majesty.

The citation was read, and the King surprised the Italian by telling him he knew about the service the Donini family had rendered Britain: two sons killed, a third a prisoner for five years and two daughters in the A.T.S.

"Thank you, sir," said Donini. Then, past the guard and out of the palace grounds walked the two of them, the King's daughter, in his pocket Aliens' Identity Card No. 60058 and the box containing his son's V.C.

## Clothing Shortage

The Dutch People Are In Need Of Millions Of Shoes

No one, even in the average or higher income brackets has two pairs of shoes, according to the Ministry of Trade and Commerce in the land of wooden shoes, Holland. There is such a shortage that 33% of the people earning an average income do not own one wearable pair of shoes. In the higher income brackets 28% do not own a decent pair.

Lack of clothing is superseding food as the most acute Dutch problem. Shipments of food are now arriving regularly but to clothe the people it is estimated that more than ninety-four thousand tons of cotton and wool, over nine million yards of broadcloth and several million pairs of shoes will be required.

The National Clothing Collection in October is giving Canadians an opportunity to help the Dutch in their predicament.

## A DEFINITE MENACE

Australian and British officers among liberated prisoners from Formosa who reached Manila expressed the opinion that "the Japanese still are a definite menace." The thought of many of the freed men was that "our victory was complete but too many of their armies were untouched."

MISS WINDSOR OF 1945—Salesgirl in a Windsor, Ont., ladies' ready-to-wear shop is pituitous in the Gaudette, 27, who was judged Miss Windsor of 1945 from a large group of contestants at the annual Windsor Firemen's field day.

## Future Is Uncertain

French Government Not Now Interested In Giant Liner Normandie

The giant, \$60,000,000 liner Normandie, once the pride of the French marine, is lying abandoned at a New York pier—her future locked behind silent doors of officials.

No one—not even President Truman—seems prepared at present to say what will happen to the fire-ravaged ship, now gathering rust and barnacles.

The United States Navy says merely that an announcement will be forthcoming, probably soon. Repairs have halted, although the U.S. government spent nearly \$14,000,000 trying to convert her into a troopship after sparks from a welder's torch set off a fire which left the once-magnificent ship a charred hulk, and she capsized at her pier.

Inquiries disclosed that shipping interests and government agencies concerned had little inclination even to talk of the Normandie—or the Lafayette as she was renamed when the United States took over the craft after the fall of France.

The French consulate-general's office at New York said frankly the French government had no interest in the vessel at all.

A spokesman for the French Line, which operated the Normandie before the Vichy government was established, shrugged, said the line was not concerned, and referred questions to the U.S. Navy department.

No payments have been made to the French government since the liner was seized and became an American ship. If she is restored, it is unknown whether she would sail under the French or American colors.

## Modern Port City

Britain Made Hong Kong One Of Biggest In The World

The re-occupation of Hong Kong by the British has given rise to much speculation as to whether the port shall be retained by Great Britain or handed back to China. When it was ceded to Britain over 100 years ago it was nothing more than a pirate's lair. Expenditure of hundreds of millions of dollars have made it one of the biggest and most modern port cities in the world.

In view of criticisms that may be made it is interesting to note what the late Dr. Sun Yat-sen said about Hong Kong when he visited the university there shortly before his death. He told the students:

"I wonder how it is that foreigners can do so much... with the barren rock of Hong Kong within seventy or eighty years, while in four thousand years China has no place like Hong Kong... Without good government the people can do nothing... My fellow students, you and I have studied in this English colony, and in an English university... We must carry this English example of good government to every part of China."

That is something for the critics of Great Britain to bear in mind—St. Thomas Times-Journal.

## USING OBSOLETE SHIPS

The liberty ships "Empire Simba" of London recently left a Scotland harbor with a cargo of poison gas to be dumped in the Atlantic and will never return. She was the first British ship to be scuttled in the program of disposing of poison gas Britain held in readiness in case of prior use of gas by the Germans. Other obsolete ships will follow with similar loads.

Henry IV of France ordered the death penalty for users or importers of Indigo.

## Imposing Censorship

The Abolition Of Japanese Imperial Headquarters And Imposition Of Censorship In Japan

General MacArthur's decisions to abolish Japanese Imperial Headquarters and to impose a censorship on the Japanese press and home and overseas broadcasts are warmly welcomed in Britain as not only right but indeed inevitable. They will doubtless cause equal satisfaction throughout the British Commonwealth and Empire.

Imperial Headquarters has been in Japan what the German General Staff was in Germany, only more so. Whatever difference may have existed between the German General Staff and the Nazi Government—and they can easily be exaggerated—Japanese Imperial Headquarters had no rival. It stood alone and supreme as the kernel of Japanese militarism and the canker of the Japanese Nation.

Abolition of Japanese Imperial Headquarters, of the German counterpart, is a fundamental condition of Allied policy as proclaimed at Potsdam, which is to apply surgery to the disease organs of the two chief enemies and curative treatment to the remainder of the body politic.

The imposition of censorship is again a measure which circumstances emphatically command. Its application to broadcasting is particularly important, as the Japanese are inveterate radio fans, even in the remotest hamlets. Since their surrender, the Japanese have been using their home broadcasts to propagate the myth that Japan, especially the Japanese Army, has not been defeated. No opportunity has been missed of attributing the Japanese surrender solely to the use of the atomic bomb, whereas the use of the atomic bomb was only a touch on the accelerator in a downhill which was already heading, and served to save countless thousands of Japanese as well as Allied lives. Japanese broadcasts for overseas consumption have tended to attempt to throw dust in Allied eyes by posturing obsequious compliance with Allied orders.

## Savage Hazing

University Students Are Changing Tactics In Recent Years

The practice of "hazing" has devolved to a shadow of its former self at many universities. At Queen's University, for instance, freshmen two decades back faced a brutal initiation. They were forced to submit to man-handling and to run a gauntlet of physical pain and indignity which could—and sometimes did—result in actual bodily harm. In contrast, initiation at Queen's University today seldom if ever includes physical assault—a development greatly to the credit of the University and its students.

A still greater improvement could be made if new students were not subjected to any form of indignity but rather at a fitting public ceremony were welcomed into a comradeship devoted to the pursuit of higher education.

We see no reason why young men seeking higher education should be subjected to treatment comparable to that inflicted by savage tribes upon their candidates for manhood—Kingston Whig-Standard.

"I feel obligated to buy this paper... once on a rainy day it kept me from getting a ten dollar hat wet."

## REG'LAR FELLERS—Guarding Public Health

## Plan Is Effective

Plane Scoops Water To Put Out Small Bush Fires

The following is from a publication of Canadian Lumberman's Association:

Ontario's Provincial Air Service is experimenting with aerial bombing of small forest fires, using water as the bombing agent.

Speeding at better than 100 miles an hour, the float-equipped plane drops nearly a ton of water in nine seconds, lands on the nearest lake, scoops portland cement from the bottom of the lake and returns to the service, is responsible for the innovation which has never been tried in Canada before.

According to Lands and Forests Minister W. G. Thompson, the new plane is strictly an experiment in dampening down the bush adjacent to small fires until the regular procedure of bringing in men, pumps and equipment to thoroughly squelch it can be carried out.

"Mr. Crossley's experiments have already shown the plan has considerable value and accordingly we have ordered that modifications on the new aircraft we are buying," he said.

The spray bombing equipment is built right into the machine. Four valves control the water dumping apparatus and Crossley, after eighting smoke on aerial patrol, drops low over the fire, releases the water and then speeds for more water or reinforcements.

The pilot has already conducted numerous experiments with the plane and has found that he can refill his tanks in a matter of seconds by taxiing along the water after landing. As soon as the floats are filled, he speeds up the machine for the take off and returns to the scene of the fire.

## Snatched From Death

Infant Crawling Over Railway Tracks Rescued Just In Time

Quick action on the part of the crew of a Canadian National Railways train saved the life of an eighteen-month old child who was snatched from the rails a split second before the locomotive passed. The infant son of a worker at Carleton Place, 75 miles east of Winnipeg, strayed from home and was crawling over the tracks when noticed by the engineer.

The train was travelling about 15 miles per hour and as he set the emergency brake, the engineer called to the fireman and brakeman. Brakeman A. E. Rice jumped from the cab, ran ahead of the train to grasp the child, and both rolled clear of the track just as the engine passed that point. Meanwhile, the fireman had made his way along the running board to the front of the locomotive.

The mother who was chasing the child at the time the train approached, witnessed the dramatic rescue.

## SUNDAY SCHOOL LESSON

THE ISRAELITES IN A FOREIGN LAND

Memory Selection: Lord, thou has been our dwelling-place in all generations. Psalm 90:1.

Lesson: Genesis 46-50. Devotional Reading: Psalm 90:1-12.

The Text Explained With Comments The Scriptures reading up to this lesson may be read.

Joseph Hears the Good News That Joseph Is Alive, Genesis 45: 16-28. Jacob and His Family Remove to Egypt, Genesis 46: 1-7.

Joseph Presents His Brothers to Pharaoh, Genesis 46: 31-47.

The five brothers were ushered by the chamberlain into the council and audience-chamber; young Pharaoh sat there surrounded by a ring of standing palace officials. He bore the crook, the scourge, and a life-symbol and sat under a beheribed baldachin, on a carved chair of the ancient and honorable uncomformableness, yet somehow contrived to relax and sit at ease in it, for he did not approve of the hieratic posture of the limits, the stiffness of which he felt was out of harmony with the lively naturalness of his god. His first mouthpiece, the lord of the breed, Joseph, the provider, stood at the right of the post and saw to it that the interview, which was conducted through an interpreter, ran off according to plan.—Thomas Mann, Joseph the Provider.

"To journey in the land we are come!" This statement Joseph's brothers is the ever-recurring plea of the immigrant throughout history. Pharaoh's response shows a practical and humane attitude toward this ancient immigration problem. In comparison with the cruel practices of Egyptian conquerors, his humanness is surprising. It can be explained by the reflection that Pharaoh Akhnaton was a religious reformer who hated war, and who maintained his rule over other nations by economic rather than military controls. His question, "What is your occupation?" shows that he had something practical in view. The immigration policy of this ancient ruler is amazingly liberal.

In the first place, he overcame his prejudices of race and caste. "Pharaoh's sensitive face no doubt betrayed a faint distaste when the interpreter pronounced the word for shepherd," for we are told that shepherd is an abomination unto the Egyptians (Gen. 46:34). But Pharaoh overcame this distaste, and offered these offensive aliens relief and employment.

## JUST COMMON SENSE

Canadian police chiefs wanted the 40-mile speed limit continued until highways are back in first-class shape and worn-out tires are renewed. It is a sound recommendation, says the Ottawa Journal. It's time enough for speed when we can have speed with comparative safety.

In 1886 Alexander Burton installed at Valleyfield, Que., what is claimed to have been the first grinder for wood pulp manufacture in America.

## OUR COMPLETE SHORT STORY—GULLIBILITY

—By JACK WOODFORD

McClure Newspaper Syndicate

They were somehow vaguely alike, the enormous sea gull and the enormous cop. The gull, which Mike called Gully, was big as an eagle—and twice as tough. The two hated each other with a rich, full-bodied venom.

The bird hated Mulvaney because she was a one-man gull, apparently, and believed that the cop kept her from her master. And Mulvaney hated the bird because he had been due for advancement a year, when he'd found her, and the slip-up the bird caused that day had cost him his promotion.

Gully, Mike figured, had also cost him a wife. Ellen Flanagan wouldn't live in the same house with a sea gull.

One of the gull's wings was broken. The bird lived on the back porch, which Mulvaney had encased in chicken wire. Taking Gully out and putting her into the special box Mike had made for her was some job. He had to wear thick gloves and a baseball catcher's mask to accomplish it.

On a Saturday night when Mulvaney had about given up hope, what he had been waiting for so long happened.

He'd taken the gull in her box out to a gambling joint in Oak Park. And it was there that Gully for the first time made a sound of affection and recognition that was unmistakable.

Mulvaney quickly opened the box, and Gully went straight for a peck-marked hoodlum, uttering rasping cries of macabre love. The low-life shot at the bird. Mike shot back and caught the tough's gun arm neatly.

The crook's face turned out to be Acklin. When they offered to put the gull in the cell with him, he confessed. Acklin didn't deny that he was the gull's first boy friend, but Gully wanted no more of him after that shot. Now it was Mike, and Mike only with Gully—so much so that Mike blushed and squirmed when she rubbed against his leg like a cat in the squad room. Gully.

Mulvaney quickly opened the box, and Gully went straight for a peck-marked hoodlum, uttering rasping cries of macabre love. The low-life shot at the bird. Mike shot back and caught the tough's gun arm neatly.

evidently, was no gal to go on singing "My Man" after her man had done her wrong. When it was all over the captain called Mulvaney into his private office.

"So that," Mike's superior said, "was why you kept that album buzzard all this time, juggling it around to joints. I was beginning to think you was nuts."

Mulvaney explained: "You see, sir, after the robbery I took the gull to a vet to examine its wing. The wing, he said, had been broken a long time before that day. So I figured no gull with a busted wing had flew to State and Madison. I does it that some guy brought it there, knowing that at the busiest corner in the world the biggest gull ever seen walkin' around would cause enough excitement to jam up everything—so's while I untangle the crowd and catch the bird the guy can pull his daylight crush. And when I seen how tough the gull is I figures no guy could of got it there quiet unless the bird was plenty friendly with him. So I starts checkin' crooks systematic."

"One way or another, Mulvaney, it was nice work. I shall report you for promotion at once."

"Thanks, sir," Mulvaney saluted and went out. Straight to Ellen. By this time, he knew, it was in all the papers how he'd tracked down the perpetrator of the daring daylight robbery on State Street; how he'd got the five grand from the Jewelers' Association as a reward; how he'd had stayed a long time cooling off from a former job, out in the lake on a boat, and had found the gull then.

"Mike, tell me right off, before we go any further," Ellen insisted, "what becomes of that razor-blind fowl?"

"I'm keepin' it," Mike said firmly. "But you told me the happiest day of your life would be when you could shoot his head off."

"Look, Ellen, I agreed to let your old lady live with us, didn't I?" Mike interposed.

"It ain't the same thing—my old lady don't bite, or scratch, or yell—like you ain't keepin' it, and me, Mike Mulvaney."

"Now look, Ellen, every guy's entitled to a pet. I don't like dogs; you don't like cats—I ain't another pet in the world, except Gully, tough enough to go along with me, except you."

"Choose!" she said, in a way she'd heard it said on the radio, right before the dame must decide between the young American engineer and the guy with a German accent.

Dejectedly Mike went home. All the kick had gone out of his reward dough and his promotion. Mike sighed so justly it rattled the windows of the department at Port Alberni, B.C., had been constructed of some kind of a piece of board and some gas pipe, a piece of most advanced resuscitation equipment. "It has proved itself for more efficient in reviving drowned or shocked persons than any of the older manual methods," says the West Coast Advocate.

Bits and pieces: In the Whitehall (Sask.) district, a party of mourners missed a funeral by being held up on the road by 13 blowouts.

At Duncan, B.C., The Leader's reporter took a pass at a wasp, got a sting in the neck, reeled groggily into a doctor's office and was revived by a shot of Adrenalin and a pretty nurse. He crawled back to his office and relates the paper.

Conveying a fleet of trucks by motorcycle near Woodstock, Ont., Mervyn Ayers ran down a fox in his beam of light. He applied and got his \$4 bounty from Oxford County Clerk Boies.

Mounties always get their pick. At Yorkton, Sask., redcoats picked up (Mike) Roy Kaban for breaking and entering at Brandon, Man., eleven years ago. . . . At Valleyview, Alta., United States Government in the 12 months totalled 23,998,651 lb.

Millions of pounds of dehydrated vegetables, 691,830 barrels of fresh apples, 6,621,846 pounds of fax fibre, millions of pounds of gold crop and vegetable seeds were shipped to Britain and many thousands of bushels of certified seed potatoes were exported in the period April 1, 1944 and March 31, 1945, to France, Uruguay, Cuba, South Africa, Venezuela, and the Dominion Republic.

The total value of business done by the Board since it was established runs into many millions of dollars. The members of the Board are: Dominion Department of Agriculture and Trade and Commerce.

Many British Children Will Soon Enjoy Being at Home

The return home of a number of British children who were war guests in Canada and the United States has loosed a spate of reported emotion that on the surface is definitely flattering to this continent. Yet it would be a mistake to accept this as anything but superficial and temporary or to fail to try and appraise the deeper fundamentals of trans-Atlantic relations developed by the five-year history of these young people.

The British children will not forget the graciousness of hospitality unstintingly given. But the majority of them are not likely to hanker very long for the North American amenities still unobtainable in Britain. Nor probably, will many of them persevere in current ambitions to settle on this continent. Five years from now desires largely engendered by disloyalty of the forcible snipping of five-year old ties will seem impracticable for a variety of new reasons.

In any event, Britain needs its youth for the long reconstruction years ahead. That need is a challenge that few of them will want to ignore. And whether they ever return here or not these wartime guests will have a very special privilege and a particular duty. It will be their to interlink the relations of the English-speaking peoples by interpreting, from joint experience, the peoples of this continent to Britain; and of explaining Britain to the friends they have left here.—Montreal Gazette.

This Week's Pattern

4586 S.M.L. Can be made from full bag

By ANNE ADAMS

Gaily and utility pattern for misses and women. Pattern 4586 can be made from full bag . . . even from a grain or feed bag!

Pattern 4586 comes in sizes small (32-34), medium (36-38) and large (40-42). Small size requires 1 1/2 yds. 35-inch material.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address, and send to: The Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Mr. Sinclair recently visited the area and states that three carloads of alfalfa seed were shipped direct from Hudson Bay Junction to Moscow, returning the local growers \$68,000.

Vegetable Oil Plant

Contract for the erection of a vegetable plant in Saskatchewan was a first in the \$2,500,000 Saskatchewan Wheat Pool project for the utilization of farm products, has been awarded to Smith Brothers and Wilson, Saskatoon contractors.

The plant, to be located on a 21-acre site in Saskatchewan's industrial section, will be the start in the wheat pool's plan which eventually will include a 100,000-bushel modern flour mill, a glycol plant, a factory for making starch, glucose and syrup from wheat and a 500,000-bushel grain storage elevator.

DESTROYED BY JAPS

Rubber trees worth millions of dollars and machinery for rubber processing have been laid waste in Malaya by the Japanese, while the tin and lumber industries also have been seriously impaired the London Daily Sketch reported in a dispatch from its correspondent in Kuala Lumpur, Federated Malay States capital.

Sailors neckerchiefs were originally designed to be used as slings or tourniquets for battle injuries.

The whale shark, largest living fish, is harmless and puts up no fight when caught by man.

Seed To Russia

Production Of Alfalfa Seed Developing At Hudson Bay Junction

An important industry involving the production of alfalfa seed is developing at Hudson Bay Junction, according to A. G. Sinclair, district supervisor, department of Colonization and Agriculture, Canadian National Railways.

Mr. Sinclair recently visited the area and states that three carloads of alfalfa seed were shipped direct from Hudson Bay Junction to Moscow, returning the local growers \$68,000.

Quilts And Comforters

Beautifully made from your wool and cloth. Making charge \$1.85. One day service. Virgin wool bats \$1.75 f.o.b. Bifton.

Custom Wool Carding

Your raw or washed wool made into batts 72x36", 72x36" x 36". Carding 50c lb. One day service.

SPIN-WELL CARDOING MACHINES

Real Money Making Card 3 the best! Ask your dealer if he can't supply write us. WIRE COMBS for carding machines \$2.75 set delivered. Any size made to order.

SPIN-WELL SPINNING WHEELS

Thoroughly new, working Machine At 1/2 price for Spinning!

Sifton Wool Products

Box 124, Sifton, Man.

## SPECIAL BOARD

To Handle Food Supplies For Export, Principally To Britain

One of the wartime boards, the Special Products Board, established on April 15, 1941, has been a quiet, yet efficient organization in connection with food supplies for export, principally to Britain.

The purpose of the Board as originally set up was to regulate the export of any product of agriculture processed or unprocessed, except bacon or dairy products, pursuant to agreements made between the Government of Canada and the United Kingdom. Its powers, however, were extended by Order in Council passed March 20, 1942, to include agreements with any Government in the British Empire or of any nation allied with Great Britain in the war.

The work of the Board is divided into five sections, namely, Poultry Products, Fruit and Vegetables, Flax, Fibre, Field and Vegetable Seeds and Certified Seed Potatoes. Each section has its own manager.

During the 12 months ended March 31, 1945, shipments of poultry products by the Board to the British Ministry of Food included: 28,833,708 lb. of dried egg powder, the equivalent of about 8,651,000 dozen shell eggs; 21,933,030 dozen shell eggs, and 1,973,089 lb. of dressed poultry. Dressed poultry shipments to the United States Government in the 12 months totalled 23,998,651 lb.

Millions of pounds of dehydrated vegetables, 691,830 barrels of fresh apples, 6,621,846 pounds of fax fibre, millions of pounds of gold crop and vegetable seeds were shipped to Britain and many thousands of bushels of certified seed potatoes were exported in the period April 1, 1944 and March 31, 1945, to France, Uruguay, Cuba, South Africa, Venezuela, and the Dominion Republic.

The total value of business done by the Board since it was established runs into many millions of dollars. The members of the Board are: Dominion Department of Agriculture and Trade and Commerce.

Warime Guests

Many British Children Will Soon Enjoy Being at Home

The return home of a number of British children who were war guests in Canada and the United States has loosed a spate of reported emotion that on the surface is definitely flattering to this continent. Yet it would be a mistake to accept this as anything but superficial and temporary or to fail to try and appraise the deeper fundamentals of trans-Atlantic relations developed by the five-year history of these young people.

MEANT FOR HIROHITO—Two Gen. George S. Patton rides the white horse which Hitler intended as a gift to Hirohito. The horse ridden by Patton in Austria was confiscated by the Germans from the Vienna riding school. It was later liberated by the Yanks and returned.

The Bacon Market

Canada Must Retain The Market Enjoyed During The War

The people have long been accustomed to regarding Danish bacon as the finest, and if Denmark combines ton shipments with an aggressive publicity campaign, it may make considerable inroads upon the market now enjoyed by Canada. It is possible for Canada to retain a dominant position in that market, but in order to do so we must let our British customers know the truth about the conditions imposed upon Canadian exporters by the war.

## Now Is The Time To Get Your Car Tuned-Up for Cold Weather

We have a complete line of WINTER GREASE and OILS and PRESTONE ANTI FREEZE. Also a complete line of IGNITION and ACCESSORIES for all makes of cars.

## Letter to the Editor

The Editor, "Journal."

The letter from the Coleman S. D. 1216 as published in your issue of August 23rd calls for some comment.

To give the ratepayers a true account of the situation the report on the schools from the sanitary inspector should be dated; this report was made two years ago (May 21, 1943) and a later report from the High School inspector (May, 1944) spoke very highly of the janitor service in Central School—particularly of the new building. The omission of the date from the published report looks like an attempt to obscure the facts.

With regard to the visit of the sanitary inspector it should be noted that the inspection was made immediately after the afternoon session of the school before the janitors had had an opportunity to sweep or dust; also the inspection came after a day during which several inches of mud and wet snow had lain on the streets. Under these circumstances any building would have presented a most unfavorable appearance to the casual visitor. A careful inspector would have noted and made some allowance for these conditions.

The long period between the report and the dismissal of the janitors suggests that the report is being used as an excuse and nothing more.

The high school inspectors spent two days in high school (new building) and reported as follows on May 11, 1944: "The condition of the walls, ceilings, woodwork and floors is excellent. The thorough type of caretaking service which is being rendered at the present time is highly commendable."

At the time of the report, the chemical laboratory was not a part of the janitors' responsibility—nor could the janitors be properly held responsible for the condition of the sand boxes in any classroom.

Wm. Antrobus.  
Dave Sudworth.

## FO. Arthur Pettifor Now Presumed Dead

Was Reported Missing in Action in March, 1944; Letter Stating He Was Presumed Dead for Official Purposes Received Last Week.

Mr. and Mrs. Walter Pettifor are in receipt of a letter from Ottawa revealing that their son, Flying Officer Arthur Pettifor, missing since March, 1944, was now presumed dead for official purposes.

FO Pettifor visited his home here shortly before sailing for overseas in 1942. He was flying in a bomber piloted by Wing Commander Davenport, formerly officer commanding No. 7 SPTS at Macleod, over Essen, Germany, when the plane was evidently shot down.

**JIMMY SLUGG REPORTS TO MONTREAL CANADIANS**

On Tuesday afternoon Jimmy Slugg started his long travel east to report to Montreal Canadians' hockey school, where he will try out for a place on the National Hockey League team.

Jimmy is a product of Coleman's Pee Wee leagues. During the past two seasons he has starred with Edmonton Canadians, a junior team. His playing ability caught the eye of a Canadian scout this spring and resulted in Jimmy signing a contract to play for Montreal. His many supporters will be pulling for him to come through hockey school successfully and contemplate sitting back this winter when it is "hockey night in Canada" and hear Foster Hewitt describe games between Toronto Maple Leafs and Montreal Canadians and to especially hear the exploits on the ice of one, Jimmy Slugg.

**JOHNNY RYPIEN REPORTS TO EDMONTON CANADIANS**

Johnny Rypien, product of Coleman's Pee Wee hockey leagues, left on Tuesday for Edmonton where he will report to the manager of Edmonton Canadians, a junior team. Johnny has had two seasons with the Canadians and has still one year of junior hockey to play.

Johnny will be without the comradeship of Jimmy Slugg this year, the two young men having practically played their entire hockey years together up to this season. Jimmy is trying out with Montreal Canadians, of the NHL.

## Fashion Shop Under New Ownership

Mrs. Albert Green Left Wednesday for Vancouver; Karl Mayerchak Purchases Business.

The Fashion Shop, on main street and which has been operated since 1939 by Mrs. A. Green and her sister, Mrs. Alice Cocciolone, was sold last week to Mr. Karl Mayerchak, of Coleman. The latter took over active management on Saturday.

The Fashion Shop first opened its doors in 1939 in the Italian Block with Mrs. A. Green and her sister, Mrs. Alice Cocciolone, looking after the business on behalf of their father, the proprietor.

Last year Mrs. Cocciolone, along with her husband, left for Vancouver where they took up residence. Last April Mr. Green left for Vancouver where he also gained employment. Mrs. Green and her two children then made plans to join her husband and the business was offered for sale. Mrs. Cocciolone returned here two weeks ago for a visit and yesterday she, Mrs. Green and the two girls left for Vancouver.

## ELLIS DERBYSHIRE ARRIVED HOME ON SATURDAY

Ellis Derbyshire, younger son of Mr. and Mrs. George Derbyshire, arrived home from overseas announced on Saturday morning to surprise his parents. Two wires which he had despatched from eastern Canada failed to reach his parents and despite the fact that George was at the station on Friday morning he failed to again go to the station on Saturday morning and so was in bed when Ellis finally arrived home.

Ellis, a member of the RCAF, was engaged in radar work while overseas, going over in April, 1944. This month he married a Manchester girl, but has little hope of seeing her again for possibly seven months when shipping will allow her to come to Canada.

## WEDDINGS

### MUSIL-HUDOCK

St. Paul's United church, Coleman, was the scene of a quiet afternoon wedding on Saturday, Sept. 22, when Gladys Vera, daughter of Mr. John Hudock and the late Mrs. Hudock, was united in wedlock with Mr. Philip Musil, both of Natal, B.C. Rev. G. A. Kettys read the marriage lines.

Entering the church on the arm of her father, who gave her in marriage, the bride wore a gown of white satin on princess lines. Her lovely veil of embroidered net, held in place by a headdress of lilies of the valley, had been her mother's. She carried a shower bouquet of pink and white roses and lilies.

Mrs. Annie Kordikorsky was matron of honor, wearing an afternoon frock of printed silk crepe in pastel shade with accessories to match. Miss Nancy Lemeshuk was bridesmaid; she was gowned in mauve sheer with floral headdress and matching veil. Miss Margaret Hudock also attended her sister, wearing olive green sheer with floral headdress and matching veil. Each bridesmaid carried a bouquet of pink and white carnations and lilies.

Mr. Robert Hudock was groomsmen with Mrs. Fred Sawchuck assisting.

The grandmother of the bride, who was present, chose for the occasion an afternoon ensemble of printed powder blue crepe with white accessories.

After a short honeymoon Mr. and Mrs. Musil will make their new home at Natal, where both were born.

## THEATRE NOTES

This week end at the Palace, Alexandre Dumas' "The Fighting Guardsman" is the main attraction. Out of Dumas' immortal story comes this screen entertainment in all the story's gallantry and glory.

At Bellevue this week end comes the celebrated picture, "For Whom The Bell Tolls." This same picture will come to the Palace on Thursday and Friday of next week. At the Palace there will be two shows each night, starting at 6.30 and 9.30 p.m. There will not be a matinee.

This picture was only distributed in Canada this year. In the States it had the same rating as the film "Gone With The Wind," and sold at the same high admission prices. It was unable to do this in Canada owing to the price ceiling and is therefore showing at regular admission prices. Remember the time once again, 6.30 and 9.30 p.m.

## MARIA OF "BELL TOLLS"

### LEARNS TO KISS

"Where do the noses go when you kiss?" asks the lovely, wistful Maria in Paramount's exciting Technicolor picturization of Ernest Hemingway's great novel, "For Whom The Bell Tolls," which is due next Thursday and Friday at

the Palace theatre, with Ingrid Bergman portraying Maria.

Maria asks the question in all seriousness of the American, Robert Jordan, played by Gary Cooper. The first time they look into each other's eyes, Maria and Robert Jordan know they are in love, deeply and lastingly. But Maria knows nothing of love; her experience has been limited to the hard, brutal realities of civil war. Maria is a girl who has been through much ugliness and barbarity, but whose

heart has remained untouched. And when she tells Robert Jordan, "I do not know how to kiss, or I would kiss you—and I shall learn to kiss you very well," you will find a lump in your throat, whether you are easily moved or not.

# EMERGENCIES arise in any family

Banks are continually making small loans to meet these emergencies which can upset the best-planned budgets.

Three out of every five bank loans are for less than \$500. Many of these are used to take care of such expenses as doctor or hospital bills, temporary embarrassment at tax-time, a sudden journey, the winter's coal bill.

Again, educational needs of the family often are financed by small bank loans.

These small loans enable individuals to consolidate debts, and to pay back from income.

Small loans furnish just one more example of the service available to you at your bank.

## Wheat In Canada

WESTERN CANADA has long been famous for the production of a large share of the world's finest wheat. The first crops were sown by the Selkirk settlers, who came here from Scotland via Hudson Bay and York Factory in 1814 to colonize land secured by Lord Selkirk from the Hudson's Bay Company. As the West was settled and transportation facilities were developed the annual wheat crop increased steadily. In the year 1849 it was estimated that 6,000 acres were sown in wheat. By 1880 the crop amounted to over 32,000,000 bushels annually, and these figures continued to rise until the present time, when they have reached the hundreds of millions. The soil and climate of Western Canada are favourable for growing the finest quality of wheat in the world, but there have been obstacles to overcome in the form of rust, insects, frost and numerous other difficulties.

### Obstacles Have Been Overcome

These, and other factors which have interfered with the success of wheat growing here have been eliminated or overcome through the efforts of farmers and others interested in the future of agriculture. Outstanding among the contributions which have been made to the success of this work are the findings of Dr. Wm. Saunders, the first Director of the Dominion Government Experimental Station at Ottawa, and his two sons, C. E. and A. P. Saunders. Through their efforts Marquis wheat was developed, and this early-maturing variety, which is ready for harvest before the early frosts have been widely used since it was introduced in 1909. This and many other such discoveries have helped to make the wheat crop from the Prairie Provinces one of the foremost Canadian industries and an important factor in world food supplies both in peace and war.

### More Acreage Now In Wheat

During the past few years, farmers on the Prairies have been encouraged to produce hogs rather than wheat, to meet the needs of Britain and other countries whose normal sources of supply had been cut off because of the war. Hog production was sharply increased to enable Canada to meet her commitments for foreign markets, but recent figures issued by the Dominion Government show that the Western farmers are now returning to wheat, their surest and most satisfactory crop. In Saskatchewan the acreage sown in wheat this year was three per cent. higher than in 1944, and in Alberta it was increased by a little more than one per cent. In Manitoba there was no increase in the amount of wheat which was planted, but the acreage sown in other grain crops was higher. In all three provinces hog production showed a marked decline. Nutritionists and others concerned with world food supplies at the present time do not view with concern these indications that wheat is once more to be Western Canada's largest crop, for they are of the opinion that during the next few years there will be need for all the wheat which can be produced to meet the world's food requirements.

### The Wool Clip

#### Western Canada Shows Marked Improvement This Year

According to the first reports, the 1935 domestic clips of Western Canada show a marked improvement over 1944 in the preparation of individual fleeces, states the Current Review of Agricultural Conditions in Canada. The Bright grades come mostly from British Columbia and Manitoba, where more favourable conditions of moisture played a major role. Saskatchewan and Alberta domestic wools appear to run more to the semi-Bright grades because of greater earth content and consequent lower yield. However, after scouring, the actual fibre is comparable with the Bright fibre.

Eastern domestic wools will probably grade better than in 1944, with a somewhat lighter shrinkage, says the Review.

The total weight of fleece wool graded in registered wool warehouses in 1944 amounts to 10,553,243 lbs., an increase of 167,641 lbs. over 1943.

### GEMS OF THOUGHT

#### FORTITUDE

Fortitude I take to be the quiet possession of a man's self, and an undisturbed doing his duty whatever evils beset, or dangers lie in the way. —John Locke.

Let us have faith that right makes might, and in that faith let us dare to do our duty as we understand it. —Abraham Lincoln.

Our great Way-shower, steadfast to the end in his obedience to God's laws, demonstrated for all time and peoples the supremacy of good over evil, and the superiority of Spirit over matter. —Mary Baker Eddy.

Let us not be weary in well doing: for in due season we shall reap, if we faint not. —Galatians 6:9.

There is a strength of quiet endurance as significant of courage as the most daring feats of prowess. —Henry Theodore Tuckerman.

A man may fall into a thousand perplexities, but if his heart be upright and his intelligence unclouded, he will issue from them all without dishonor. —Robert Louis Stevenson.

## Price Control And Rationing Information

Q.—I have just returned from overseas and am on thirty-day leave. Ration coupons were issued to be for all rationed foods, except meat. Now that meat has been rationed, will I be able to obtain coupons for meat?

A.—Yes. Meat coupons will be issued to service personnel on leave by the local ration boards who received temporary ration cards prior to the rationing. You must present your ration card when making application for these coupons.

Q.—Must beef rings register with their local ration boards?

A.—All beef rings must register as such with the local ration boards. All regulations controlling their operations will be given to them when they apply for registration.

Q.—How often do meat coupons become valid?

A.—Meat coupons will become valid every Thursday and will remain valid until otherwise declared.

Q.—My husband is expected home from overseas next month. Can I get sugar for canning coupons for him so that I may put up extra preserves for the winter when he will be home?

A.—Yes, if your husband is discharged and applies for a ration book before October 31st, 1945, 20 additional preserves coupons will be issued to him in his ration book 5.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your rationing prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### Showed Their Loyalty

#### People Of Northern Ireland Played Important Part In War

Today the Government of Northern Ireland continues to function, notwithstanding all the woes and devices of its enemies, and the Province has played a highly important part in the war with Germany, now victoriously concluded. Mr. Winston Churchill and other British Ministers of the Crown have paid public tributes to the services rendered by Ulster, the possession of whose harbours, apart from other considerations, has been of the utmost value to Britain in combating the submarine menace. The brutal and vicious air raids carried out over Belfast and neighboring cities in 1941 bore witness to the Nazi recognition that Ulster areas were among the most redoubtable adversaries of Germany. The company and resolution of the people of the Province has remained unshaken under all the storms of adversity and their loyalty has not wavered or diminished with the passing of the years. —Belfast Telegraph.

STRIPES OVER TOKYO — The American flag, first to fly over Tokyo since the Japanese surrender, is raised over the Nippon News Building in downtown Tokyo by an army lieutenant.

### For Eggs That Keep

#### New Machine For Sterilizing Still In Experimental Stage

Still experimental, and possibly in need of a radio washband for operation, is a high-frequency machine for sterilizing eggs, under development at the University of California farm at Davis, Calif. In principle, somewhere between radio and diathermy, the device uses oscillations that cook an egg hard in about nine minutes, but with only a ten-second exposure, the egg germ is killed, giving better keeping quality; certain bacteria on the shell are also destroyed; the egg's albumen is slightly stiffened, so that when broken in the pan, the yolk stands out above it. If brought to a commercial stage, the machine probably would improve keeping quality and appearance of eggs. Experts are not ready to make claims. —Brandon Sun.

### Will Be Long Job

#### Clearing German Land Mines From Normandy And Brittany Beaches

Between six and seven million unexploded German land mines are still hidden in the fertile fields and sandy beaches of Normandy and Brittany. Since D-Day an average of 200 people, including many children, have been killed each month by German mines.

Aug. 1, only one-tenth had been removed by French workmen and German prisoners of war trained by United States troops. The dangerous job will not be finished before 1947. —Time.

An overheated motor may be due to a loose fan belt. The belt should be examined and adjusted occasionally.

### MEET A CWAC—

"I'm Beginning To See The Light" should be the theme song of all Night Vision Testers according to S/Sgt. Edna Pollock of Virden, Manitoba, after her experience with this type of work in various camps. S/Sgt. (Poly) Pollock, a former school teacher at Prince Albert and Cupar, Sask., enlisted in the Canadian Women's Army Corps at Regina, Sask., in March, 1943. After receiving her basic training at Vermilion, Alta., she was posted to No. 3 Co. CWAC, Orderly Room, M.D. 12, Regina; where she was promoted to the rank of corporal and later to the rank of platoon sergeant. In Feb., 1944, S/Sgt. Pollock attended a Canadian Army Administrative Course at Kempenfelt, Ont. In July of the same year she proceeded to Toronto to take a course in Night Vision at the College of Optometry; at the completion of which, she was posted to the Night Vision Unit at Debert Transit Camp, Nova Scotia. "My work in Night Vision was by far the most interesting, and I also feel the most useful of any work I have done during my army career," states S/Sgt. Pollock. "It was gratifying to know that we were going to help the men, who were proceeding directly overseas from Debert, and perhaps in some instances be the means of saving their lives by instructing them in how to use their night vision to the best advantage." Poly described the Night Vision Centre at Debert as consisting of two complete units with a staff of seven CWACs. They gave lectures and tested as many as 276 men in one day. The lecture was generally given to a class of about 20 and lasted about 15 minutes, after which every man's vision was tested individually, and graded according to his ability to see in the dark. Leaving Debert in July, 1945, S/Sgt. Pollock was posted to the Night Vision Unit at Camp Shilo, Man. She is at present with No. 112 Depot Coy., CWAC, Regina, awaiting her return to civilian street.

### CWAC TAKE OVER PIED PIPER'S HOME—

Education tours of Germany in the area in which they are working, are now underway for members of the Canadian Women's Army Corps stationed in Germany. These tours, arranged by the Canadian Army Educational Services, have been greeted with enthusiasm by the Army girls and already many off-duty hours have been devoted to the neighbouring countryside. The first trip to be attended by the CWAC led to the quaint old town of Hameln, home of the famous Pied Piper. The lovely old stone house once said to be occupied by the Pied Piper has been taken over by British troops. The next jaunt was to Porta, near Minden, where a commercial engineer from Holland conducted CWACs through the Philips Electrical Underground Plant. Further tours have been planned.

### "HEROINES OF WAR"

Canadian actress D. Munroe's play entitled "Heroines of War", won the award given by the Canadian Daughter's League, Regina, Sask. The award was offered for the best play written by a Saskatchewan person, preferably with a Saskatchewan locale. It dealt with army life as the girls know it. With a cast of six CWACs, the action takes place in barracks, and might be staged in any cubicle. Captain Munroe, herself, has had a very interesting career. Prior to the war she was an actress on an English stage for seven years. She has also done sales promotion work in Egypt and was about to leave for India when war broke out. Immediately prior to enlisting in the Canadian Women's Army Corps she was in the West Indies. She came to Canada from there and entered the Corps in a commissioned rank. Since then she has been stationed variously in Toronto, Estero and Regina. At present she is officer commanding No. 21 Admin. Unit, CWAC, Dundurn Military Camp, Dundurn, Sask.

### SHELL SAY IT EVERYTIME—

Pte. Penelope: (extending third finger of left hand) Banns.

### An Honest Man

#### Stranger Returned Large Sum Which A Bank Overpaid

It happened in a bank not very far from St. Thomas.

There was a long queue at the cage and the teller was as busy as could be. Among the cheques was cashed one for several large amounts. That night when he came to balance his cash he was exactly \$1,000 short.

Next morning a man who was quite a stranger, who lived in a city some miles away, came into the bank. "You gave me \$1,000 too much yesterday," he said. "I did not count it until I got home. I thought you would be worried about it, so I brought it back."

He was a Jew.

—St. Thomas Times-Journal.

### Clothing Collection

#### For Distribution Among The Destitute People In War-Stricken Countries

The National Clothing Collection is a united effort on the part of Canadian United Allied Relief Fund, and UNRRA (United Nations Relief and Rehabilitation Administration) with the assistance of national, provincial and local organizations throughout Canada. The purpose of the collection is to secure more use of clothing for free distribution to needy and destitute children, men and women in war-devastated Allied countries.

Throughout war-ravaged areas clothing is very scarce, and thousands of people are in dire need. Of these more than 30,000,000 are children. Because Canada is dependent on outside sources for a very substantial portion of her requirements of yarn and fabrics, it would not be possible to manufacture in Canada more than a very insignificant part of the total clothing requirements of these people. This means that needy children, men and women in war-devastated Allied countries must depend on the help of the Canadian people through their donations of used clothing which can be spared, without replacement.

In a report on the work being done by UNRRA, President Roosevelt wrote on September 30th, 1944: "Millions of people do not have enough clothes to keep them warm... in occupied Europe almost as many people have died from exposure due to lack of adequate clothing as have died from starvation."

The Canadian public will be asked to contribute in this campaign only such serviceable used clothing as can be spared from their wardrobes without replacement.

What is needed is used clothing for both winter and summer wear. Although clothing need not be in perfect repair, it must be useful to the people who will receive it. All types of washable garments should be washed before they are given to the collection, but need not be ironed. Other garments should be clean and sanitary, but need not be dry-cleaned before being contributed.

Used clothing to be collected: Men's, women's, children's suits; old coats, skirts, trousers; women's dresses; coats, sweaters, blouses, aprons; men's, women's, children's overcoats; jackets in all sizes; scarves, shawls; footwear (fastened firmly in pairs); blankets.

### Big Ben A Symbol

#### French Airman Says Chimes Gave People Comfort And Strength

The following letter appeared in the London Daily Sketch:

Sir,—For countless Frenchmen like myself your famous Big Ben at Westminster will have been a stirring emotional effect for many years after this European War.

I was a French airman at the time my country collapsed. Then I went underground as a member of the Resistance Movement.

During those years of German occupation the chimes of Big Ben on our hidden radios night after night gave us comfort and strength. As long as we heard them we knew that Liberty was not dead. For Europe Big Ben was the symbol of hope.

Recently I came to London. The first thing I wanted to see was Big Ben. It gave me the most moving moment of my visit.

PAUL VERDOIS.

### CARING FOR GRAVES

Thirty-one mothers, residents of Malta, have pledged themselves to care for the graves of 30 Canadians who gave their lives in the defence of Malta, and who lie buried in the second great war cemetery in the island fortress. The graves will be kept sodded green and planted with flowers. This was revealed by John Giordano, vice-president of the Maltese Society of Toronto.

### TOUCH OF IRONY

General MacArthur showed more than a delicate touch of irony in naming "Bataan" as the password to secure admission of the Japanese representatives to the conference at Manila on terms of surrender.

The world's largest exporter of coffee in Brazil.

2638

# MOVEMENT OF CANADIAN AND BRITISH WAR PRISONERS FROM JAPAN TO COMMENCE SOON

VANCOUVER.—Mass movement of Canadian and British war prisoners liberated from Japanese captivity will begin through Vancouver in about 10 days, military officials here revealed Saturday. Between 16,000 and 20,000 servicemen and civilians will be involved in the movement.

Officials said all available military and Red Cross resources are being mobilized here and on Vancouver Island to care for these people and to arrange transportation east for those who are well enough to travel.

Four ships loaded with Canadian and British prisoners, now are on the high seas bound for the west coast. The first of these ships with about 300 persons on board scheduled to dock at a west coast United States port (possibly Seattle or San Francisco) about Oct. 1. Six days later a ship carrying between 1,200 and 1,500 liberated servicemen will reach a west coast port. The two other vessels have civilians aboard and are expected to dock at American ports early October.

It is expected about 8,000 British servicemen and 1,500 Canadian servicemen will reach here. Army officials said the British servicemen, personnel of the army, navy, air force and merchant navy, will probably be kept in B.C. for several months.

## LABOR SHORTAGE

Most Serious In The Lumber And Building Industries

OTTAWA.—A Dominion-wide labor shortage shows promise of easing and "some industries long understaffed now may expect early relief," the labor department said. However, a shortage of building workers continues to be "one of Canada's most serious labor problems" and the lumber industry was described as "acute."

Although the number of applicants registering for jobs still was not sufficient to meet vacancies, the supply was increasing rapidly due to release from war plants and the armed services.

"This increase in demand can be attributed not only to the greater seasonal activity in the agricultural and food processing industries but, to a large extent, by the fact that many manufacturers of civilian goods now are able to secure workers for their previously understaffed plants. Another important factor is the steadily increasing demand for construction workers."

Both the prairie and Pacific regions are in need of a greater supply of skilled and unskilled building labor.

## MORE HUMANE TRAPS

TORONTO.—A nation-wide campaign to encourage use of more humane traps than the common steel trap in which animals often die slowly is being conducted by the association for protection of fur-bearing animals. Officials said they believed a trap which killed instantly could be devised for north country trappers which are sometimes left unvisited for several days.

## A KINDLY ACT

TORONTO.—A Toronto businessman righted the wrong done by a purse-snatcher who stole \$12 saved by Mrs. Frederick Herity so she and her five-year-old daughter Sharon could travel to Winnipeg to meet her husband, recently freed from a Japanese prison camp. The businessman, G. H. Wood, gave Mrs. Herity \$100 to make the trip.

# BIG FIVE NATIONS REACH AGREEMENT ON TROUBLESOME ITALO-YUGOSLAV BOUNDARY

LONDON.—Foreign ministers of the Big Five nations said they had reached substantial agreement on the troublesome Italo-Yugoslav boundary dispute and had turned over to their deputies the drawing of the actual boundary line.

A communique issued after two sessions of the Big Five council said it had been decided to make Trieste, now in Italian hands, an international port, and to give each nation sovereignty over peoples speaking its language.

This solution, giving Yugoslavia less than she had asked and taking from Italy more than she wanted to give up, apparently was in line with the formula proposed by Soviet Foreign Commissar Molotov.

"Territories which belong to Croats and Slovenes should be returned to them," M. Molotov said. "Those which are Italian in character, it will be proper for Italy to take."

The communique said the new boundary would, in effect, divide the ethnic lines, leaving a minimum under alien rule, on the understanding that

## YIELDS RECORD CROP

This Year's Alaska Seal Catch Is Valued At \$1,000,000

ST. LOUIS.—The once almost-extinct Alaska seal has yielded another \$1,000,000 crop of skins.

The 1945 expedition to the small Bering sea islands of St. Paul and St. George in the Pribilof group reported a catch of 76,700 seals, the largest for a normal year's operation since the United States department of commerce undertook conservation of the vanishing herd in 1911.

The Fouke fur company of St. Louis, which finances the expeditions on behalf of the United States and Canadian governments, estimated the skins will have an average value of \$50 to \$55 each when they are prepared for tanning.

Until the first batch of processed skins is auctioned Oct. 8, the entire supply remains the property of the United States and Canadian governments, 20 per cent. belonging to Canada and 80 per cent. to the United States.

Proceeds of the sales, less costs of the expedition and marketing, will be remitted to the two governments in proportionate shares.

## UNABLE TO ESCAPE

Atomic Bomb Killed Some Allied War Prisoners At Nagasaki

SAN FRANCISCO.—The second atomic bomb dropped on Japan burned 31 Allied war prisoners to death in a prison compound at Nagasaki, radio Melbourne said.

Altogether, 211 British, Dutch and Australian prisoners of war were in the compound when the bomb exploded a half mile away.

Launcey Cpl. John D. Armstrong of New South Wales, one of 23 Australian survivors on route home said a terrific rush of air was heard first.

"I had time to run two or three yards and crouch beside a wall before the building collapsed in a heap of rubble and twisted iron," he said.

"That was accompanied by a blinding flash of yellow light which scorched paint off buildings, tore foliage from trees and killed everyone who had not taken cover."

"Every hit of steel and every building in the devastated area, which was about four miles long and one mile wide, seemed to fold up in a flash."

## BIG FOUR AGREE

Report Of Trouble Over War Criminals Trials Is Denied

LONDON.—The British war crimes commission issued a statement saying the Allies were proceeding with preparations to try the first of Germany's war criminals at Nuremberg before the end of October.

Denying a report that "some disagreement" among Britain, France, Russia and the United States had led to a postponement, the statement said: "The attorney general has no knowledge of any such disagreement, nor is it the case that the trials have been postponed."

## SHIPLOAD OF EGGS

OTTAWA.—An entire shipload of Canadian-wrapped eggs, totalling 100,000 cases on 170 cars, will be loaded soon on a ship at Vancouver for export to Britain via the Panama canal and is believed the largest such shipment ever exported from any country, the agriculture department said in a marketing service report.

COMMANDED JAP CAMP—One of the toughest Jap prison camp bosses was Lt. Kakuzo Sida, seen after his arrest by the Allies.

## IMMIGRATION PLAN

Australian Government Has Objective Of 70,000 People A Year

CANBERRA.—Immigration Minister Arthur Calwell said in the Australian house of representatives 75 months will elapse before there will be adequate shipping to bring immigrants to Australia from Japan.

He said the government planned to bring out 70,000 people a year, which would require liners capable of carrying 2,000 people each to make a total of 35 trips a year.

The largest mail liners which formerly served Australia from Britain only carried 1,000 people so bigger ships would be needed.

## FLAX FIBRE PLANT

Proposed Plant May Be Established At Saskatoon

SASKATOON.—A representative of the firm interested in establishing a flax fibre pulp plant in Saskatoon will visit Saskatoon this month to study the economic aspects of such a plant, S. N. MacEachern, commissioner of the board of trade, said.

The proposed plant would employ 100 men and would spend annually about \$500,000, Mr. MacEachern said.

The intention was to collect flax fibre from seed sown in areas of Saskatchewan adjacent to Saskatoon, he said. It would then be brought to the city to be processed into pulp. However, it might be that where distances were too great, some processing would be done in the area where the flax was grown before bringing the tow to Saskatoon for further processing into pulp.

In such cases the fibre would be decorticated, where it was grown, the tow would be baled and brought in for the final processing, he said.

## FLEET WAS CHEERED

Warships Of Britain And United States Welcomed At Shanghai

SHANGHAI.—United States and British warships returned in force to Shanghai for the first time in eight years and thousands of Chinese lined the Bund, cheering and waving flags. Gray warships of Admiral Thomas C. Kinkaid's 7th fleet steamed 15 miles up the muddy Whangpoo river and anchored in mid-stream.

The British cruisers Glasgow and Belfast followed, along with several British destroyers attached to the 7th fleet.

HISTORIC MOMENT is recorded here as Gen. Yoshijiro Umezu, for the Japanese imperial headquarters, signs the surrender papers while Allied representatives look on.

AERIAL MIGHT OF THE ALLIES is displayed by the beaten Japs as these warplanes fly in formation over the Missouri while the Japanese sign the formal surrender.

# EXTENSION OF SERVICE IN CANADIAN NAVY TO BE ON PURELY VOLUNTARY BASIS

## MAY BE NECESSARY

Continuation Of Meat Rationing In United States Is Possible

WASHINGTON.—Duration of meat rationing in the United States depends upon the extent of food commitments abroad, Agricultural Secretary Anderson said following a conference with President Truman.

Mr. Anderson's statement dispelled hopes that the meat rationing program in this country would terminate Oct. 1.

He said there is enough meat in the U.S. to meet the normal domestic needs without the necessity of rationing, but it is necessary to continue meat rationing, it will be a liberal one, equal to a normal peacetime consumption in this country."

Mr. Anderson said sugar rationing will probably be continued in 1946.

President Truman declared the U.S. government is taking necessary measures to insure a continuous flow of food and other supplies to liberated areas in Europe.

He said government agencies have authority to issue set-aside orders on specific quantities in the event it is necessary to insure deliveries abroad. Ration controls on some items would follow if they became in short supply, he added.

## CRERAR HONORED

Receives Membership In Order Of Leopold From Belgian Ambassador

OTTAWA.—Belgium's highest honor—membership in the Order of Leopold—was bestowed on Gen. H. D. G. Crerar by the Belgian ambassador, A. Paternotte de La Vallée, at a ceremony at the general's residence here.

Gen. Crerar, who led the First Canadian Army on the continent, was made a grand officer of the order and was presented with the Belgian war cross.

## LIFT RESTRICTIONS

OTTAWA.—It was announced by the wartime prices and trade board that restrictions on conventions, other meetings and organized travel groups will be removed on November the first.

Restrictions on conventions, other meetings and organized travel groups will be removed on November the first.

# THE GOVERNMENT PLAN TO PROVIDE A LONG TERM FLOOR PRICE FOR WESTERN WHEAT

## STILL A PROBLEM

Denmark Would Like To Get Rid Of German Civilians

COPENHAGEN.—Denmark, finally rid of all occupying German soldiers, still has the problem of 210,000 German civilian evacuees, mainly simple laborers shipped from East Prussia and the Baltic last March as Allied armies tightened their pincers.

On the 10th, H. H. Koch, permanent undersecretary of state, said, "We'll get rid of them as soon as we can," but added that this could not be done before spring.

Meanwhile the Germans—only a small part of the estimated 7,000,000 to 9,000,000 homeless persons in Europe—are living in Danish schools and other public buildings where the German army quartered them. They also are eating Danish food, which Koch said, "We'd like better to send to devastated areas in France, Belgium and Holland."

Winnipeg.—Prairie grain producers, market authorities and wheat pool officials, whose organizations represent thousands of farmers in the west, studied the federal government's plan to provide a long-term floor price for wheat.

Trade Minister MacKinnon announced in commons that producers will receive "not less" than \$1 per bushel, basis No. 1 Northern wheat in store at Port Arthur, Fort William or Vancouver on authorized deliveries for each crop year during the five-year period ending July 31, 1950.

Few would comment immediately, preferring to study Mr. MacKinnon's announcement and its relation to production and marketing problems.

W. J. Parker, president of the Manitoba Wheat Pool, termed it "satisfactory."

He said producers had been seeking assurance for a long term post-war period.

"The dollar a bushel initial guarantee at main terminal points is satisfactory as long as the Canadian wheat board continues to handle the wheat, making sales to the best advantage."

The board has been handling the marketing of Canadian wheat since Sept. 18, 1943 when trading in futures was suspended by the federal government due to war conditions.

Recently there were reports that open trading soon would be permitted again on the Winnipeg grain exchange, but these were promptly denied by Mr. MacKinnon.

No reference was made to the duration of wheat board operations, but it was indicated the board would continue its marketing program indefinitely.

Provision for the long-term floor price will protect producers from sharp reductions in world wheat prices, providing at all times a price picture on which farmers can base production plans.

Canada will be shipping millions of bushels to the United Kingdom and war-ravaged Europe, and Mr. MacKinnon said "there is a moral obligation not to take advantage of our recent Allies in time of their compelling need."

Growers will benefit from the higher price through participation certificates, sharing in profits when the wheat is sold at a level above the initial guaranteed price.

Heavy exports have been made recently, Great Britain taking more than 15,000,000 bushels of wheat.

## OTTAWA.—Retention of a proportion of "hostilities only" personnel for a period of two years to meet

manpower requirements until the Royal Canadian Navy is established on a peacetime basis, was announced by naval service headquarters.

The extension of service will be on a voluntary basis and will be in line with the maintenance of interim forces by the army and air forces.

Recruiting for the permanent force of the navy will be continued during the two-year period, which terminates on Sept. 30, 1947.

Personnel who re-engage for the interim service will continue to receive active service rates of pay and allowances.

War service gratuities and other post-discharge benefits will continue until March 31, 1946, for personnel based in Canada, while those based outside the western hemisphere on Aug. 31, 1945, will continue to receive the benefits beyond that date.

providing they are still serving overseas.

In recruiting for the permanent force special consideration will be given both to personnel who have already been demobilized and to those who continue on active service during the extended period.

It was announced that ratings entering the permanent force would volunteer for five years' service instead of the former period of seven years and would qualify for pension after completing 20 years in the navy.

## SEED GRAIN CERTIFICATES

OTTAWA.—The special products board announced minimum participation certificates will be issued for values of five cents a pound on alfalfa, alsike clover and alsike white clover mixture seed and three cents a pound on red clover seed.

Purpose of the guarantee of the minimum value of the certificates is to encourage the conservation of seed from the current year's crops.

Flight distances between cities in most cases are approximately 20 per cent. less than either the highway or rail routes.

Flight distances between cities in most cases are approximately 20 per cent. less than either the highway or rail routes.

## Local News

Mr. Jack Richards is a patient in a Calgary hospital.

Mr. L. Llewellyn, of Calgary, is the guest of friends here.

Wm. Milley jr. left for Edmonton where he will enter the University of Alberta.

Mrs. J. Derbyshire and Jack visited at Lethbridge on Wednesday of last week.

Mr. Ewelmin, of Calgary, is the guest of Mr. and Mrs. W. Dibble.

### WHILE THEY ARE GROWING UP

YOUR family's need for protection changes. To meet these changing family needs we have originated a specially designed plan of Life Insurance.

IT GIVES YOU THESE OPTIONS:-

1. You may stop paying premiums at the end of 14 years and have a fully paid up policy, or,
2. You may continue the premium payments to the 20th year when the amount of insurance paid up is increased by 50%
3. The premiums paid between the 15th and 19th year are added to the amount of insurance if death occurs during that period.
4. At the end of 20 years the substantial cash value will exceed the total of all premiums paid.

This is the 20-Payment Guaranteed Addition Plan, issued only by

The Dominion of Canada General Insurance Company
